YOUR ACCOUNT IS NOW ACTIVATED

Steps to Update XML on the New Site:

We change the XML from <https://www.eurolamp.gr/el/...>

To <https://services.eurolamp.gr/el/...>

The screenshot shows a REST client interface. On the left, there is a dropdown menu with 'GET' selected. In the center, there is a text input field containing the URL 'https://services.eurolamp.gr/'. A red arrow points to the 'services' part of the URL. To the right of the input field, there is a blue 'Send' button with a dropdown arrow. Above the input field, there are 'Save' and 'Share' buttons with their respective icons.
